

TASMANIAN WINTER 2024 PROGRAM

Tasmania's tourism brand and appeal as a travel destination is strong, but maintaining momentum is key to ensure we can stay top of mind with travellers within competitive and dynamic market conditions.

Continuing to drive visitation over the traditionally quieter and cooler months has been a focus for the government with investment in the state's key demand driving activity increased to support the tourism and hospitality industry.

To help you with planning over the April – August period, we have provided a monthly overview of key events, festivals and business events that will influence visitors to your region, along with an update on Tourism Tasmania's Off Season brand campaign and partnership activity focused on driving visitors to the state.

This calendar is not exhaustive of all events and marketing activity that will be running over the Off Season period. There are still a number of events and business events being finalised, along with micro events being planned across the state.

THE OFF SEASON

Tourism Tasmania's Off Season winter program will be the biggest ever investment in winter, aimed at positioning Tasmania as a must-do winter experience.

The Off Season 2024 targeted digital campaign will start in March, with broader media activity live in market from early April until the end of July.

It will include:

- A multi-channel national marketing campaign launching 8 April in integrated media channels including TV, cinema, out of home advertising, content partnerships and digital.
- A film asset to tell the Off Season story and communicate Tasmania's point of difference in high reaching channels.
- Strategic partnerships with key trade and airline partners to drive holiday bookings.
- An increased PR focus, to build awareness of Tasmania and its winter experiences through stories in top tier media.
- Renewed Off Season presence on the Discover Tasmania website
- A dedicated eDM and social media program to highlight Off Season industry offers and the unique

nature, cultural, and culinary experiences available across the state, and promoting the winter events and festivals on offer in 2024.

- Continued marketing awareness of the [Discover Tasmania app](#), enabling visitors to discover tourism businesses and experiences around the state.
- A one-off Offers Support Program is underway helping businesses with their unique Off Season offer.

How to get involved

Submissions are still open for tourism and hospitality operators in Tasmania to get involved in this year's Off Season program by delivering a special winter experience for visitors that is different from your regular offering.

Visit the [Tourism Tasmania website](#) for more information and to submit an Off Season offer.

Offers can be submitted until Sunday 31 March 2024.
