An aerial photograph of a white van driving on a dirt road that winds through a coastal landscape. The road is flanked by dense, low-lying vegetation. In the background, the ocean stretches to the horizon under a clear blue sky. Two vertical white lines are positioned on the page: one near the top center and another near the bottom center, both extending vertically.

Tips for creating your product description

- Start with your product's name and location, then outline its unique features and qualities. Follow this with additional information about the product.
- Use short paragraphs with simple language.
- Do not use abbreviations. For example, write TV as television, BBQ as barbecue.
- Descriptions should not use bullet style dot points. The description must be in sentence format.
- Spell out numbers from one to ten and use figures for 11 and above – for example, six bookings, 66 travel agents. For larger numbers, write 11 million, not 11,000,000.
- Express the description in terms of what 'you will experience' what 'you can do', not what the product can do for them.
